Section 2 Survey information feedback

What were the expected or unexpected findings from the survey feedback?

The Learner Engagement survey has a 4 point scale as follows:

1 = Strongly Disagree

2 = Disagree

3 = Agree

4 = Strongly Agree

AVETA's targeted response rate for 2018 was to average at least 3 points or above for all of qualifications on its Scope of Registration for students who completed a qualification in that year. AVETA was again able to achieve this target for 2018 (following on from previous successes from 2013 to 2017).

AVETA actual response rate across all Learner Engagement Indicators for 2018 was 3.50

What does the survey feedback tell you about your organisation's performance?

The 2018 learner feedback indicated that AVETA's aim of providing quality educational services to its overseas students has again been achieved, as indicated by those overseas students, who completed qualifications on AVETA's Scope of Registration throughout 2018. This achievement reconfirms AVETA's focus on maintaining the provision of quality education products and services for our students on a daily basis; and is considered by AVETA to be one of the major contributing factors for AVETA's overseas students achieving their educational goals.

Section 3 Improvement actions

What preventive or corrective actions have you implemented in response to the feedback?

AVETA conducted an internal review of its operations during 2018, and as a result, has upgraded the educational services AVETA provides to its overseas students. AVETA believes this has allowed us to maintain our targeted response rates from students.

How will/do you monitor the effectiveness of these actions?

AVETA's Team will continue with their hands-on approach, in the delivery of quality educational services to its overseas student cohort, and will continue this process into 2019 and beyond.
